NH FIRE STANDARDS & TRAINING & EMS

Announces

N337 Command & General Staff Functions for Local IMT's (CREF: 09-12-NFA-30)

WHEN: September 22 - 27, 2008

TIME: 8:00AM - 4:30PM

WHERE: NH Fire Academy
98 Smokey Bear Blvd, Concord, NH

COST: \$50

PREREQUISITES: None

COURSE DESCRIPTION: The purpose of this course is to present training to a designated team of fire, EMS, Department of Public Works, Public Health and/or law enforcement personnel from a larger and generally more populated area, typically with a single jurisdiction (city, county, or region). They would be activated to manage an incident requiring a significant number of local and mutual aid resources. This course is intended to be delivered as "team training" to an entire Local IMT. The aspects associated with training as a team are critical for effective coordination and decision-making under high-stress, dynamic situations such as those during emergency incidents. It is understood, however, that there are occasions where all team members may not be able to train together, and occasions when new/additional team members need to receive training.

REGISTRATION: **NHFA General Admission Application.** Registration is limited on a first come first serve basis. **Only completed applications** will be accepted by mail, in person, or by fax. Check, Money Order, Credit Card or Chief's signature must accompany the application.

**Applications will be accepted from Tuesday, July 22, 2008 at 8:00AM

Estimated Dollar Losses and Values

Estimated Dollar Loss is a very important aspect of fire incident reporting. This figure is a **“guesstimate”** of the total loss for the structure and contents. If this field is left blank, when an actual loss exists, it skews the statistics and adversely affects data quality.

The definition in the NFIRS 5.0 Complete Reference Guide, defines this field as the “estimates of the total property and contents dollar loss and the pre-incident value of the property and contents. An estimate of the property and contents dollar loss is required for all fires.”

In other words, this is a rough estimate of the total loss for the structure and contents. This estimate should take into consideration the replacement costs for building and contents damaged by fire, smoke, water and fire control. This dollar loss field helps to identify monetary losses and assists in identifying possible trends in certain types of situations. It also helps to bring to light the magnitude of the fire problem and severity for our state as well as nationwide.

To assist in improving consistency in the reported values and losses please use the following:

For every 1000sf, the replacement cost is approximately \$100.00 per square foot. Therefore, if the loss is 1000sf, it would cost approximately \$100,000.00 in replacement costs. When making this entry, use only whole dollars.

Please also note the following disclaimer:
